Brand Overview

KIGI specializes in development of smart household products. All of its products are used in combination with KIGI APP, which is the optimization and upgrading to the functions of the traditional household products, and make KIGI products better conform to the life needs of contemporary consumers, offer more intimate smart household services, therefore consumers can manage their daily life in a more efficient and convenient way. The positive changes in lifestyle and living habits during using KIGI products will be good for reducing resource waste and environmental pollution. Join KIGI to create an environment-friendly and low-carbon life!

Safety Testing & Certification

FDA

LFGB EU

ISO 9001:2015

KIGI™ food storage container keeps track of your food, so you don't have to think about it.

400°C Heat Resistant Glass Container Series
& Plastic PP Food Container Series

KIGI™ SmartTrack food storage container with a built-in, specially -designed hollow silicone ring can hermetically store food at room temperature and atmosphere pressure. It is suitable for storing in the refrigerator, reheating in the microwave, cleaning in the dishwasher and baking in the oven (only glass food storage containers are suitable to be used in oven).

KIGI™

KIGI™ APP

Reminder

"The refrigerators and cabinets are stuffed with foods of different expiration date. If you don't pay enough attention, you may have to throw away some expired food."

KIGI™ APP will remind you to eat food before expiration so as to avoid waste.

Fresh

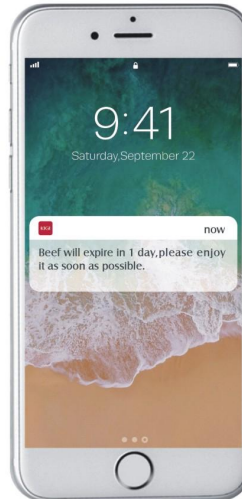

Too late

Still great but don't wait

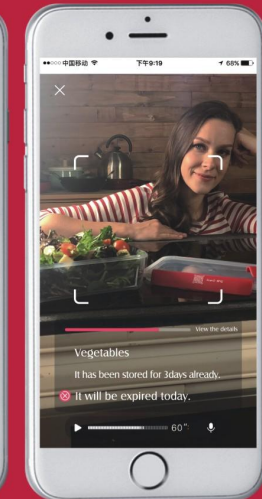

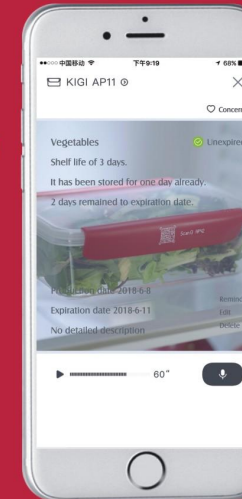

KIGI™ APP reminds you quickly to know the state of your food, so that you don't have to think about it.

Food Information Storage

"Sometimes, you will inadvertently eat some food that has been stored for a long time, but you forget its expiration date and you're not sure if it can be eaten or not."

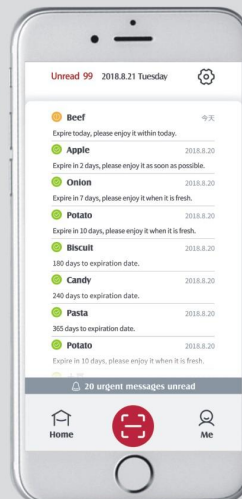

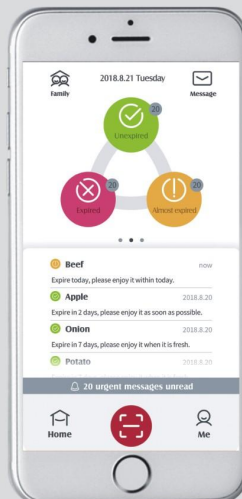

You can check the shelf life of stored food with KIGI™ APP at any time to avoid eating expired food.

Food Storage Overview

"Forgetting what food is stored at home, you buy the same food again, which is a waste of money."

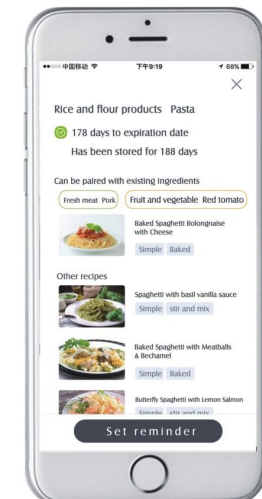

Check KIGI™ APP and you know exactly what to eat and check it also before making a purchase plan.

Recipe Search

"What do you eat for dinner? This is a tangled problem."

KIGI™ APP will offer you a variety of cooking recipes based on your stored food. Just a click, everything is clear.

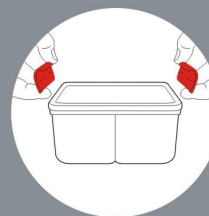

KIGI™ APP

KIGI™

Annually there are **8.8 million** tons of food wasted in China, which is enough for **103 million** people to eat for a whole year. The annual global carbon footprint caused by food waste is equivalent to **3.3 billion** tons of carbon dioxide. Our original intention to develop KIGI™ SmartTrack Food Storage Container is to reduce waste food amount .

Smart can be simple

Step 1:
Assemble the
Kigi™ food
storage container

Step 2:
download KIGI™APP in
your cellphone,install it,
register and login, and
then set up the food
expiration date reminding

Step 3:
We take care of the rest.

KIGI™ SmartTrack food storage container makes every consumer to feel the comfort and convenience brought by the change of living habits, and helps an increasing number of families to manage their daily life more efficiently. This will be beneficial for reducing resource waste and environmental pollution to create an environment-friendly and low-carbon life !

Waste less time | Waste less food | Waste less money

What you should know about KIGI™ APP

- 1 When inputting food information, in case of no internet available, users can select offline mode to directly use it. Please note that, in such case, once the phone is lost, the information data will be lost too. Therefore, it's suggested to register as a member with internet available and login to KIGI™ APP. So that the information data will be automatically saved in cloud. You will never have to worry about losing the data.
- 2 When you update the information of foods stored in the food storage container, original information will be replaced.
- 3 KIGI™ APP can intelligently recommend regular expiration date based on the information of stored food. However, due to differences in external factors like regional climate and freshness of food during its purchase, the stored food's actual expiration date is also different. It is suggested to adjust the expiration date of stored food according to actual situations
- 4 You can use relevant services provided by the QR code ID on the KIGI™ food storage container for a period of ten years, commencing from the date when the QR code is scanned.
- 5 Before using the reminder function of KIGI™ APP, you need to enable its permission to reminder on your cellphone and debug the function to ensure normal use.
(The permission to reminder can be set in the notification bar of the IOS system, the prompt bar, notification management bar, etc. of the Android system)
